Please note the additional support below for the position of Wholesome Sweeteners that Calcium Hydroxide remain on the approved list of substances allowed in organic food production.
 Many Thanks

Subject: Sunset review comments

Hello,

I noticed that you are commenting on 1 material that I would also like to comment on. I would like this material to **remain on the approved list**. If you are also commenting on this material to keep it on the approved substance list, is it possible to add my name? The substance that I would like to comment on is:

Section 205.605:

(b) Synthetics allowed:
Calcium hydroxide.

Thank you!

Sincerely,
 Amy Rosenoff
